Staff Report

LINCOLN WAY CORRIDOR PLAN STUDY

February 16, 2016

BACKGROUND:

Our consultants, Houseal Lavigne Associates, intend to facilitate a discussion with the City Council regarding the following questions at your February 16, 2016, workshop as they kick off their Lincoln Way Corridor Plan Study. These questions are being provided on Friday so that Council members can prepare their thoughts prior to the workshop discussion. Please note that each question includes some brief instructions to consider prior to the facilitated discussion. In addition, the consultant intends to collect hard copies of each Council member's responses at the end of the workshop.

1. IDENTIFY FIVE (5) ISSUES/CONCERNS FACING THE LINCOLN WAY CORRIDOR

- Members of the City Council can prepare responses to this question prior to the workshop; however, a few minutes will be provided to do so during the workshop.
- Responses to this question could be very general (e.g. "traffic congestion") or very specific (e.g. "The intersection of X and Y backs up traffic along the corridor.")
- To the extent that a comment can be attributed to a specific location along the Corridor, please do so, though the consultants recognize that some comments may apply to several locations or the Corridor as a whole.

2. LIST, IN ORDER OF IMPORTANCE, THE THREE (3) MOST IMPORTANT ISSUES DISCUSSED THUS FAR.

- Please do not complete this question until instructed to do so during the workshop. Your responses to this question will depend upon the group's collective responses to the question.

3. IDENTIFY THREE (3) SPECIFIC PROJECTS OR ACTIONS THAT YOU WOULD LIKE TO SEE UNDERTAKEN WITH THE LINCOLN WAY CORRIDOR.

- Please do not complete this question until instructed to do so during the workshop. Your responses to this question will depend upon the group's collective responses to Questions 1 and 2.

4. WHAT ARE THE PRIMARY STRENGTHS AND ASSETS OF THE LINCOLN WAY CORRIDOR?

- Members of the City Council can prepare responses to this question prior to the workshop, however, a few minutes will be provided to do so during the workshop.
