

COUNCIL ACTION FORM

SUBJECT: 2017/18 ASPHALT STREET PAVEMENT IMPROVEMENTS – PIERCE AVE, PIERCE CIR AND TYLER AVE.

BACKGROUND:

This is the annual program for reconstruction and resurfacing (rehabilitation) asphalt streets, typically located with residential neighborhoods. Streets within residential subdivisions have been installed using full-depth asphalt pavement since mid-1970. Full-depth replacement of these streets has become necessary due to structural pavement failure. Rehabilitation of existing asphalt streets is possible where the base asphalt layer is solid, but the surface course has failed. This program was created in accordance with City Council’s goal of strengthening our neighborhoods. **This project will replace the existing worn out pavement on Pierce Avenue, Pierce Circle and Tyler Avenue with a new 7” thick hot mix asphalt pavement.**

On March 21, 2018, bids for the project were received as follows:

Bidder	Base Bid Amount
Engineer's Estimate	\$ 706,080.30
Manatts	\$ 776,412.35

Estimated costs and associated revenues with this project include:

<u>Revenues</u>		<u>Expenses</u>	
Fund	Amount	Activity	Amount
G.O. Bonds	\$850,000.00	Design/Administration	\$ 70,000.00
		Construction	\$776,412.35
Total	\$850,000.00	Total	\$846,412.35

ALTERNATIVES:

- 1a. Accept the report of bids for the 2017/18 Asphalt Street Pavement Improvements Project.
- b. Approve the final plans and specifications for this project.
- c. Award the 2017/18 Asphalt Street Pavement Improvements Project to Manatts for the amount of \$776,412.35.

2. Do not proceed with this project.

MANAGER'S RECOMMENDED ACTION:

Proceeding with this project will make it possible to provide better service for all residents of these local streets.

Therefore, it is the recommendation of the City Manager that the City Council adopt Alternative No. 1, as described above.
