

**COUNCIL ACTION FORM**

**SUBJECT: TEMPORARY STREET CLOSURE FOR THE USE OF A CRANE AT 111 LYNN AVENUE**

**BACKGROUND:**

Staff has been contacted by Barnhart Crane and Rigging Co. for a temporary street closure request at 111 Lynn Avenue for the use of a crane. The crane will be used to install upgraded cellular components onto the roof of 111 Lynn Avenue. This work will require the closure of both lanes of Lynn Avenue between Lincoln Way and Chamberlain Street for one day to safely accommodate the use of the crane. A location map has been provided (attached).

*The Municipal Code* requires that City Council approve temporary closures of streets that are classified as arterials or are active CyRide routes, which is the case with Lynn Avenue (Brown Route #6).

Pending weather conditions, Barnhart Crane has proposed to complete the work on Monday, June 29<sup>th</sup> and will notify impacted residents and businesses. Vehicular and pedestrian access to area residences and businesses will be maintained at all times.

**CyRide has been notified and will re-route bus service during the street closure. The detoured route has not yet been determined by Cyride.**

**ALTERNATIVES:**

1. Approve the closure of Lynn Avenue, as noted on the attached map, to facilitate the use of a crane at 111 Lynn Ave.
2. Direct staff to work with the contractor to determine alternate dates to conduct the work.

**MANAGER'S RECOMMENDED ACTION:**

By granting this closure of Lynn Avenue, City Council would be facilitating installation of upgraded cellular components at this property.

Therefore, it is the recommendation of the City Manager that the City Council adopt Alternative No. 1 as described above.
