

MEMO

Item No. 10

To: Mayor Haila and Ames City Council

From: Deb Schildroth, Assistant City Manager

Date: August 24, 2021

Subject: Climate Action Plan Supplemental Input Committee
Appointments

One of the tools being used to ensure that the City's Climate Action Plan (CAP) process engages and empowers residents, businesses, and institutions is the creation of the Supplemental Input Committee (Committee).

Committee representation comes from twelve community sectors: Building Contractors/Developers, Business, City-at-Large, Civic/Non-profit, Community Schools, Faith-based Organizations, Healthcare, Iowa State University Administration (appointees), Iowa State University Student Government (appointee), Iowa State University students, Non-City Government Agency, and Residential. An application process similar to the process the City uses for other boards and commission was followed and over 50 applications were received.

The overarching role of the Committee is to offer feedback at designated stages of the CAP development including establishing carbon reduction targets. The Committee serves as a conduit between the community sectors they represent and the CAP consultant, SSG. The Committee is responsible for implementing outreach strategies developed in our Engagement and Outreach Plan and suggesting new strategies.

This memo is accompanying the list of Committee members appointed by the Mayor and requiring approval by Council. The Committee meetings fall under applicable public meetings and public records laws.

Mayor's Recommendation for the Climate Action Plan Supplemental Input Committee

Business – (3)

- Kristin Dillavou
- Eric Abrams
- Jon Banwart

Building Contractors/Developers – (2)

- Justin Dodge
