COUNCIL ACTION FORM

SUBJECT: PURCHASE OF REPLACEMENT TIRES FOR PUBLIC WORK'S RESOURCE RECOVERY PLANT'S TWO END LOADERS

BACKGROUND:

The Resource Recovery Plant uses two end-loaders equipped with heavy-duty solid rubber tires to handle refuse dumped onto the plant's tipping floor. Both loaders will soon need new tires. These end loaders are critical to managing the many tons of refuse delivered daily to the plant. Solid rubber flat-proof tires are essential for the steady, reliable operations at the plant.

SETCO Tire Company currently has a pricing agreement with the City under a prior request for proposals which was renewed for FY 2022/23. This tire purchase will be priced with the current agreed pricing as follows:

Vendor	Model	Unit Price	Quantity	Freight	Total
SETCO Tire Co. Idabel, Oklahoma	SG-Junk Yard Dog	\$10,302.12	8	\$1,940	\$84,356.96

Funds are available from replacement funding that is accumulated for Resource Recovery Plant Loader Tires. The current balance of replacement funding for this purchase is \$141,097. The tires will be delivered after July 1, 2023.

ALTERNATIVES:

1. Approve the purchase of 8 SG-Junk Yard Dog tires from SETCO Tire Co. of Idabel, OK for \$84,356.96, and to be delivered after July 1, 2023.
2. Reject the purchase and instruct City staff to research alternatives.

CITY MANAGER'S RECOMMENDED ACTION:

These specialized tires are necessary to efficiently operate the Resource Recovery Plant. The proposed purchase has been evaluated by staff and appears to provide the necessary quality tires at an acceptable price. Therefore, it is the recommendation of the City Manager that the City Council adopt Alternative No. 1, as described above.
