COUNCIL ACTION FORM

SUBJECT: 2023/24 PAVEMENT RESTORATION - SLURRY SEAL PROGRAM

BACKGROUND:

The Slurry Seal Program is an annual program applying a variety of preventative and proactive maintenance techniques to preserve and enhance street pavements. The techniques in this program are typically more specialized or larger in scope than can be performed by City maintenance staff. The Slurry Seal Program levels joints and provides a new thin wearing surface for traffic, predominately on residential streets, limiting the typical disruption to residents to no more than one day.

On February 21, 2024 bids for the project were received as follows:

<u>Bidder</u>	<u>Bid</u>
Engineer's Estimate	\$198,575
Fort Dodge Asphalt Company	\$186,693

There is \$250,000 of Road Use Tax funding allocated to this program annually in the Capital Improvement Plan, of which \$216,815 remains available for this project. A list of proposed project locations is attached.

ALTERNATIVES:

1.
 - a. Accept the report of bids for the 2023/24 Pavement Restoration - Slurry Seal Program.
 - b. Approve the final plans and specifications for this project.
 - c. Award the 2023/24 Pavement Restoration - Slurry Seal Program to Fort Dodge Asphalt Company of Fort Dodge, IA in the amount of \$186,693
2. Reject the bids and direct staff to make changes to this project.

CITY MANAGER'S RECOMMENDED ACTION:

Accepting the report of bids and awarding this project will extend the lifespan of the streets in the program and provide a better traveling experience for users of the corridors and those living in the neighborhoods. Therefore, it is the recommendation of the City Manager that the City Council adopt Alternative No. 1, as noted above.
