

# Everyone benefits, everyone shares.

**Everyone** benefits from reliable, available human services for seniors, for the disadvantaged poor, for daycare.

**Everyone** benefits from a more attractive community, attractive to companies with jobs to provide, attractive to residents.

**Everyone** benefits from a moderated property tax, reducing cash outflow in tax payments and rental fees.

Doesn't it make sense that everyone share the funding for human services, community betterment, and tax relief?

## VOTE YES FOR LOCAL OPTION
