SUBJECT: 2009/10 & 2010/11 NEIGHBORHOOD CURB REPLACEMENT PROGRAM

BACKGROUND:

This is the annual program for replacement of deteriorated curb and gutter in selected neighborhood areas. Areas to receive curb and gutter replacement are selected by comparing and prioritizing applications received from neighborhoods to a priority matrix that has been approved by City Council.

Deteriorated concrete curb and gutter will be removed and replaced along Marston Avenue from 10th Street to 13th Street. The benefits will include improved aesthetics for the neighborhood and reduced infiltration into the subgrade, which will lower future street maintenance costs.

Staff has completed plans and specifications with estimated construction costs of \$131,500. Engineering and construction administration are estimated in the amount of \$13,000, bringing total estimated costs to \$144,500. The project is shown in both the 2009/10 & 2010/11 Capital Improvement Plans with financing established in the amounts of \$75,000 per year from the Road Use Tax Fund. Remaining funds will be utilized for design, contract administration, and contingencies on this project.
