

COUNCIL ACTION FORM

**SUBJECT: PURCHASE OF SOFTWARE MAINTENANCE FROM SUNGARD
PUBLIC SECTOR**

BACKGROUND:

The approved FY 2010/11 budget for Information Technology includes \$92,250 for existing software maintenance.

Sungard Public Sector is the City's software vendor for the integrated financial, utility billing, building permits, and citation management applications. The City contracts with this vendor on an annual basis for maintenance services. Sungard Public Sector is the sole provider of maintenance for these software applications.

Included in this yearly maintenance is 24-hour programming support, software upgrades on all applications throughout the year, and eligibility to participate in the annual Sungard Users' Group meeting where software enhancements are requested and formalized for the next year.

ALTERNATIVES:

1. Waive formal bidding requirements and authorize City staff to enter into FY 2010/11 software maintenance contracts with Sungard Public Sector at an estimated cost of \$85,344.40.
2. Do not authorize continuing software maintenance contracts with Sungard Public Sector.

MANAGER'S RECOMMENDED ACTION:

Sungard Public Sector is the sole provider of the maintenance services for the integrated financial, utility billing, building permits, and citation management software. The agreement for these applications includes software maintenance.

Therefore, it is the recommendation of the City Manager that the City Council adopt Alternative No. 1, thereby waiving formal bidding requirements and authorizing City staff to enter into FY 2010/2011 software maintenance contracts with Sungard Public Sector at an estimated cost of \$85,344.40.
