COUNCIL ACTION FORM

SUBJECT: AGREEMENT WITH AMES COMMUNITY SCHOOL DISTRICT TO PURCHASE SIX PLAY STRUCTURES FOR ELEMENTARY SCHOOL SITES / EARLY CHILDHOOD CENTER

BACKGROUND:

During 2010 staff became aware that the Ames Community School District had a need to replace play equipment at each of its elementary schools, as well as the Early Childhood Center at Northwood. The District is currently facing difficult financial challenges and cannot fund the total cost to replace this equipment.

In September 2010, with the goal of assuring that elementary school sites continue to serve residents as "neighborhood parks", the City Manager and Director of Parks and Recreation attended a School Board meeting. The City Manager proposed that the City and District partner in replacing this equipment. The City Manager stated his belief that the infusion of City funds for the purchase of playground equipment on School District property is warranted since citizens rely upon grade school sites to serve as "neighborhood parks," and explained how an upgrade to these facilities would facilitate the City Council's goal to strengthen our neighborhoods. City staff communicated to the School Board that the cost for an appropriately sized piece of equipment would be \$37,500 for each site, or \$225,000 total for up to six sites. At the School Board meeting, staff shared that – subject to City Council approval – the City would contribute \$135,000 and the District would need to contribute \$90,000. The School Board expressed support and appreciation of this proposal.

In January 2011, the Parks and Recreation Commission lent its support to this action during the Capital Improvement Planning (CIP) process to redirect \$135,000 in City funds (or \$22,500 per site for six sites) to assist the School District with purchasing new play equipment for up to six elementary schools / Early Childhood Center. In February, the City Council approved \$135,000 in the 2011/12 budget and CIP for this purpose.

As detailed in the attached agreement, each purchased piece will become the asset of the District, and the City will have no responsibility to maintain/replace the equipment or assume any liability for its use. However, the public will be allowed to use the equipment and each site will serve as a "neighborhood park". The City's contribution is for the purchase of play equipment only; not for safety surfacing, footings, installation, or other ancillary expenses.

It should be noted that, as the School District renovates and/or constructs new elementary schools in future years, these play structures will be installed in a manner that they can be relocated to another location.

The underlying vision for this City/School District partnership includes the following:

- 1) An upgrade to the District's elementary school playgrounds will facilitate the City Council's goal to strengthen our neighborhoods.
- 2) This partnership will enhance the relationships of parents at each elementary school and within the neighborhoods by allowing them to work together to fund-raise the District's share of the cost and by assisting with the installation of each piece.
- 3) After school hours, each elementary school will be promoted as a "neighborhood park".
- 4) Each elementary school will have a safe, fun, and age-appropriate play structure.

ALTERNATIVES:

1. Approve and enter into an agreement with the Ames Community School District to fund \$135,000 to replace up to six play structures at elementary school sites / Early Childhood Center with an appropriately sized piece of equipment costing \$37,500 each.
2. Do not enter into an agreement to partner with the Ames Community School District to fund the replacement of play structures at elementary school sites / Early Childhood Center.

MANAGER'S RECOMMENDED ACTION:

By partnering with the School District, this is a unique opportunity for the City to enhance elementary schools / Early Childhood Center, improve neighborhoods, and strengthen relationships amongst our residents as they fund raise and help install these play structures.

Therefore, it is the recommendation of the City Manager that the City Council adopt Alternative #1, thereby approving and entering into an agreement with the Ames Community School District to fund \$135,000 to replace up to six play structures at elementary school sites / Early Childhood Center with appropriately sized pieces of equipment costing \$37,500 each.
