## COUNCIL ACTION FORM

## SUBJECT: CONTRACT RENEWAL - ELECTRIC SERVICES TRANSFORMERS

## BACKGROUND:

This contract is for the purchase of transformers necessary to meet the anticipated needs of the Electric Services Department. These transformers are kept on hand in order to ensure availability which will enable staff to replace failed transformers quickly.

Typically, these transformers are used to provide service for commercial and residential applications. It is also necessary to meet the anticipated needs of the Electric Services Department for new service and maintenance activities. Transformers would be purchased by the City as requested on a quarterly basis. This contract provides the City with inventory management flexibility and also helps to reduce the need for extensive storage space.

On February 23, 2016, City Council awarded a contract to RESCO, Ankeny, IA, for the purchase of these transformers in accordance with unit prices bid. This contract included the option for the City to renew in one-year increments for up to four additional years. Staff recommends renewing the agreement for the period of April 1, 2019 through March 31, 2020. Council should note that this contract renewal with RESCO includes unit price increases on all the transformers on the contract as demonstrated on the attached price summary. The average price increase based on previous usage is $5.0 \%$ or $\$ 15,501.93$. This is the third renewal out of four possible renewal periods. Electric Services staff reviewed the increases and found them to be acceptable based on steel market conditions.

The transformers are purchased from an Electric Department inventory asset account and charged to the appropriate operations accounts as the transformers are put into use. Council should note that no contract amount is being authorized at this time, since payments will be based on unit prices and quantities ordered.

## ALTERNATIVES:

1. Approve the contract renewal with RESCO, Ankeny, lowa, for the purchase of Electric Services transformers in accordance with unit prices.

Transformers will be purchased quarterly. Payments will be based on unit prices and actual quantities ordered, plus applicable sales taxes.
2. Reject renewal extension and attempt to purchase electric transformers periodically at unpredictable prices.

## CITY MANAGER'S RECOMMENDED ACTION:

It is important to purchase transformers at the lowest possible cost with minimal risk to the City. It is also imperative to have these transformers available to meet customer needs.

Therefore, it is the recommendation of the City Manager that the City Council adopt Alternative No. 1 as stated above.
