Subject: Yield or Stop sign needed?

Hi Tim,

Thank you for your service to the city of Ames in so many ways. My wife and I are delighted to live in Ames.

I am writing to you as our Ward 2 Councilman to bring to you an observation about traffic in our neighborhood. As a resident on Narland Drive at Roosevelt Ave., I have periodically noticed a traffic pattern at the intersection of Hunziker Drive and Roosevelt Avenue that is of concern. It is regularly and I believe understandably assumed that Roosevelt Avenue has right-of-way. However, not infrequently there are some cars and truck traffic east or west on Hunziker Drive across Roosevelt Avenue without regard for traffic on Roosevelt. I would think it good to be addressed before an accident occurs, whether with yield signs or stop sign.

Thanks for letting me bring this to your attention.

Gary
