Hi Grant!

I forgot one important item. To initiate the study request can you please send a letter or email to the City Clerk's Office making the request. That way we can get it "on the books" officially.

Thanks!

Hi Grant!

We have a bit of a backlog in study requests. However, we can add this request and collect data as soon as workload allows.

Thanks!

Hello. I would like speed data collected for vehicles travelling eastbound on Ontario in the Alabama and Alberta area. When the data collection is complete, please share the data with me. Thank you.
