**Subject:** Green Hills Community - Electrical Transformers

[External Email]

Greetings!

I'm writing in regards to the city program about wrapping electrical transformers in a esthetically pleasing vinyl wrap in order to help blend these into the surroundings. We asked the city for approval for Green Hills to do the same thing with transformers located on the campus. Many of these transformers are eyesores and are in desperate need of new paint or something to cover the deteriorating surface. We also have large transformers at our main entrance we would like to wrap in order to help blend it into the scenery. The residents of our association pay large fees and taxes to match to live in a community without these eyesores that have been the subject of talks going on 8 years now. Please let me know how we can move forward on getting something done with these transformers, whether the city is willing to paint, allow us to hire a contractor to paint, or preferably hire a contractor to put vinyl wraps on these units.

I look forward to your comments. Please feel free to call or email me anytime.

Thank you.
