Your Honor and members of the council,

After speaking with members of your public works department, I am writing this letter to you. I am writing concerning the east 300 ft. part of Adams Street, which after all these years, still remains a gravel road. I'm asking why. It is my understanding that the cost of paving is the responsibility of the adjoining property owners who are refusing to pay. Meanwhile, many street improvements nearby have been completed, including the new Dawes Drive. How are these improvements funded?

This 300 ft. stretch needs to be paved now! Residences in north Ames should not have to drive on gravel anymore in this area. I am asking you to come up with a way to provide financing for this project, which would be a small cost compared to the repaving of Dawes Drive, Top-O-Hollow Road, Hoover Avenue, and countless other road projects.

Thank you for your consideration!

Concerning Assessment Parcels and Platted Lots Within the City of Ames Jurisdiction:

The solid parcel boundary lines represent the legal description as recorded and are not necessarily the official platted lot lines. Dashed lines are official platted lots. If a parcel contains dashed lines, please contact the Ames Planning & Housing Department (515-239-5400) to determine which lines can be recognized for building permit or zoning purposes. If you have questions regarding the legal description or parcel measurements, please contact the Story County Auditor's office (515-382-7210).
