I live in north Ames, just off Highway 69 in Quarry Estates. I lament that there isn't a good way to bike from our area into the main part of Ames along the Grand Avenue corridor. There is a good bike route once you get to the south edge of Ada Hayden but getting to that path is problematic. There are few options, since highway 69 is not safe AT ALL for biking and the other route for biking into Ames necessitates going quite a bit west and coming in off Hyde (the west side of Ames).

I hope you can address this issue as you work on your bicycle master plan.
