Subject: Public Pathway along George W Carver AVE

[External Email]

Would the City of Ames consider accepting a donation from the Waters Edge Townhome Association of the public walkway on the north side of George W Carver Ave from Chilton Ave to near Valley View Road?

This walkway is the main walking/biking connection between the Somerset area and the new developments north and west of Northridge Heights. Our homeowners association has no housing units on the pathway and it is a very low priority for our association. The city may want to enhance this pathway all the way to the Golf Course.

Thanks for your consideration.
