**COUNCIL ACTION FORM**

**SUBJECT: 2023/24 PAVEMENT RESTORATION - SLURRY SEAL PROGRAM**

**BACKGROUND:**

The Slurry Seal Program is an annual program applying a variety of preventative and proactive maintenance techniques to preserve and enhance street pavements. The techniques in this program are typically more specialized or larger in scope than can be performed by City maintenance staff. The Slurry Seal Program levels joints and provides a new thin wearing surface for traffic, predominately on residential streets, limiting the typical disruption to residents to no more than one day.

**Staff has completed plans and specifications with estimated costs of \$198,575. There is \$250,000 of Road Use Tax funding allocated to this program annually in the Capital Improvement Plan, of which \$216,815 remains available for this project. A list of proposed project locations is attached.**

**ALTERNATIVES:**

1. Approve the plans and specifications for the 2023/24 Pavement Restoration – Slurry Seal Program by establishing February 21, 2024, as the date of letting and February 27, 2024, as the date for the report of bids.
2. Direct staff to make changes to the project.

**CITY MANAGER'S RECOMMENDED ACTION:**

This project will repair and extend the lifespan of the streets in the program and provide a better travelling experience for users of the corridors and for those living in the neighborhoods. Therefore, it is the recommendation of the City Manager that the City Council adopt Alternative No. 1.
