[External Email]

Hello-

I am asking for assistance again with these two nuisances.

The 1st photo is the empty lot located at the intersection of Washington Ave and 4th St. The lot was mowed once the year but now the weeds are at least 6ft tall. You can see that they are taller than my suv. Please contact the owners again and have them clean it up.

The additional photos are of the bus that has been discussed - ongoing- for years. This is the current state of this situation. Nothing has moved for months. This whole situation is disappointing.

thank you

Balinda Ellsworth
