MEMO

To: Mayor and City Council

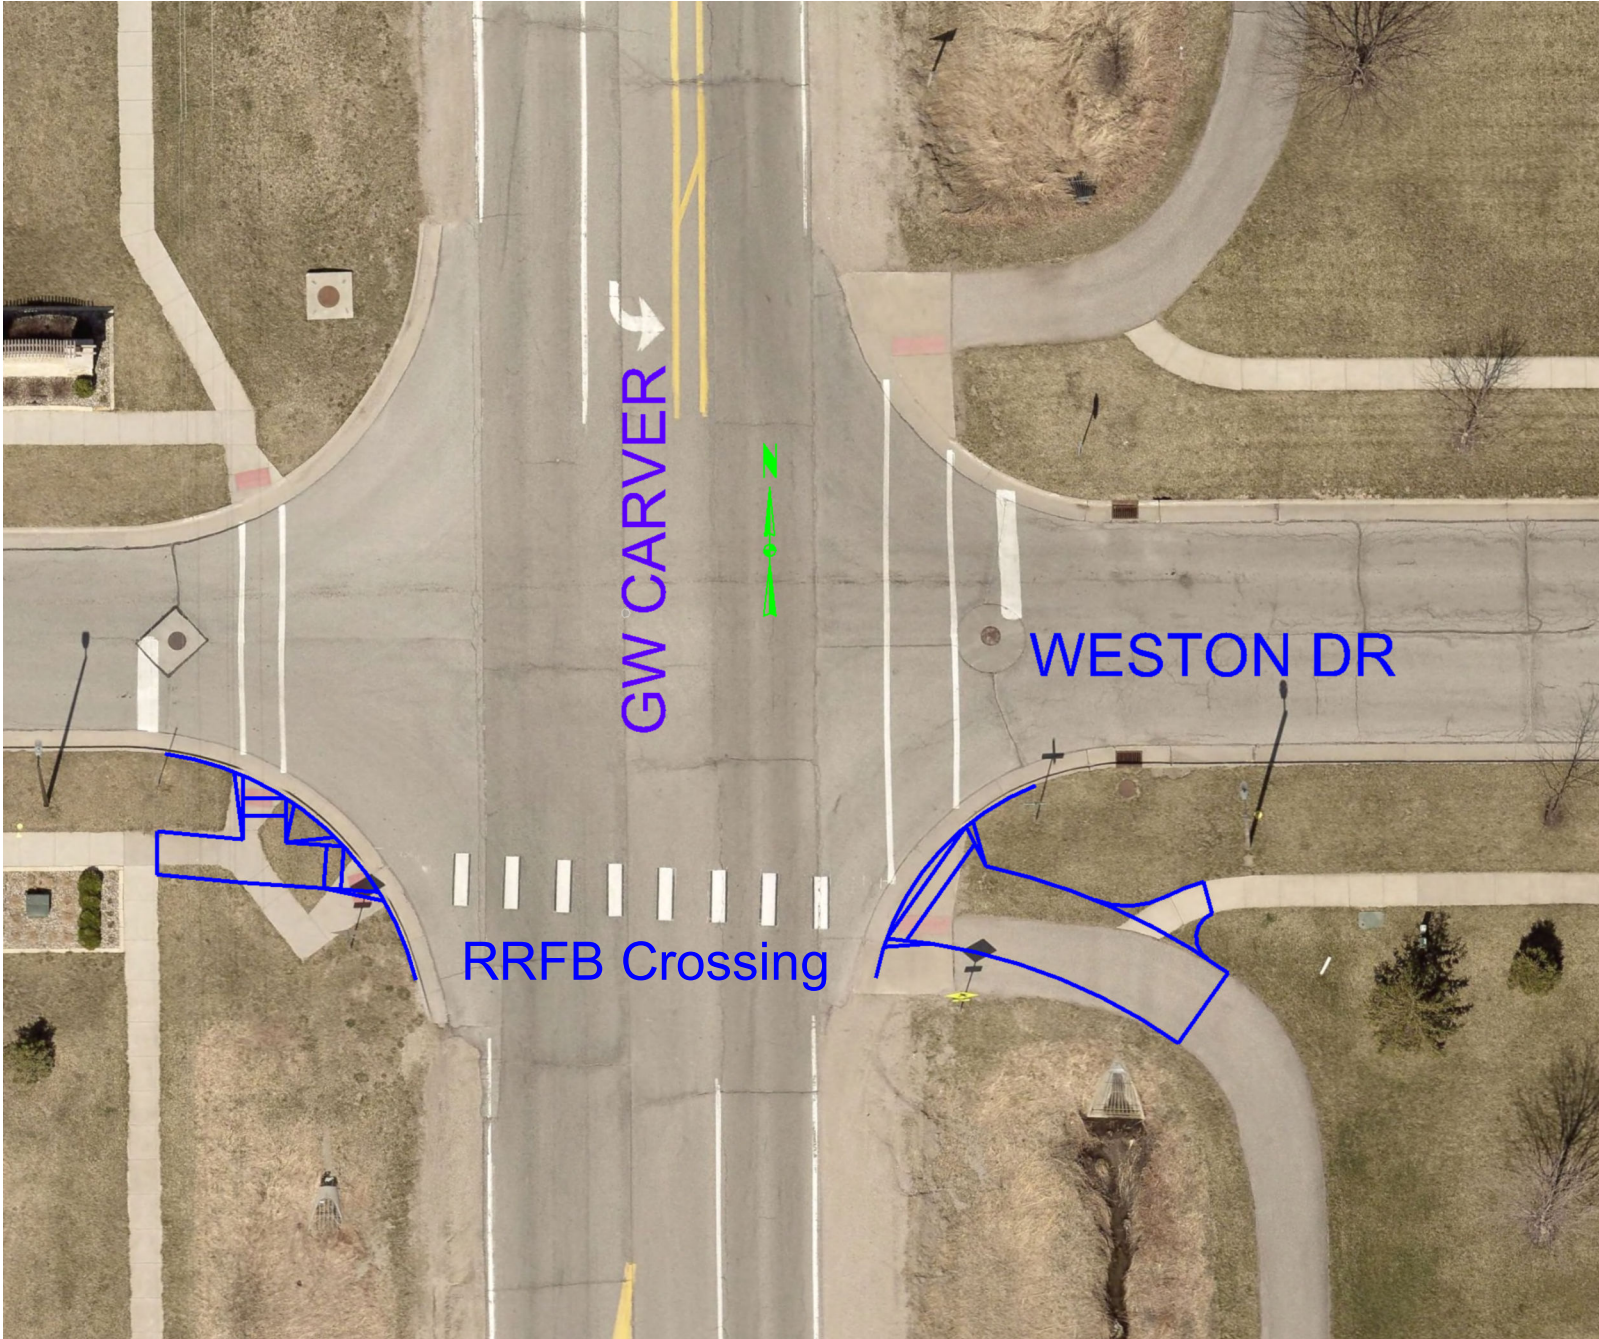

From: Mark Gansen P.E., Civil Engineer II

Date: November 19, 2024

Subject: Scenic Valley Neighborhood Pedestrian Warning Light

BACKGROUND:

At the September 14, 2023, meeting, City Council directed staff to explore installing a pedestrian warning light for the crossing of G.W. Carver Ave at Weston Drive. Staff programmed this location into the FY 2024/25 Accessibility Enhancement Program for pedestrian ramp upgrades and a Rectangular Rapid Flashing Beacon (RRFB) installation. The ramp upgrades are currently being designed for a winter bid letting along with multiple other locations, and the RRFB is on order. All work is anticipated to be completed in 2025.
