COUNCIL ACTION FORM

SUBJECT: 2025/26 PAVEMENT RESTORATION - SLURRY SEAL PROGRAM

BACKGROUND:

The Pavement Restoration Program is an annual program applying a variety of preventative and proactive maintenance techniques to preserve and enhance street pavements. The techniques in this program are typically more specialized or larger in scope than can be effectively performed by City Maintenance staff.

The Slurry Seal Program levels joints and provides a new thin wearing surface for traffic, predominately on residential streets, limiting the typical disruption to residents to no more than one day. **Staff has completed plans and specifications with estimated costs of \$229,222.92.**

There is \$350,000 of Road Use Tax funding allocated to this program in FY 2025/26 in the Capital Improvements Plan. **Funding has been carried over from previous fiscal years, resulting in \$363,745.70 available for this project.** (A list of proposed locations is attached).

ALTERNATIVES:

1. Approve the plan and specifications for the 2025/26 Pavement Restoration - Slurry Seal Program and establish August 5, 2026 as the date of letting and August 11, 2026 as the date for the report of bids.
2. Direct staff to make changes to the project.

CITY MANAGER'S RECOMMENDED ACTION:

This project will repair and extend the lifespan of streets in the program and provide a better traveling experience for users of the corridors and for those living in the neighborhoods. Therefore, it is the recommendation of the City Manager that the City Council adopt Alternative No. 1.
