- This quote contains items with approved price exceptions applied against them.
- Unless otherwise noted, this quote excludes sales tax or other applicable taxes (such as Goods and Services Tax, sales tax, Value Added Tax and other taxes of a similar nature). Any tax the customer is subject to will be added to invoices.
- Unless otherwise noted in this quote / order, installation of equipment is not included.

V700 BODY-WORN CAMERA SOLUTION DESCRIPTION

The V700 body-worn camera captures clear video and audio of every encounter from the user's perspective. Its continuous-operation capabilities allow constant recording, helping the user to capture every detail of each situation and create a reliable library of evidence for case building and review. The V700 can stream live video and report real time GPS location through a built-in LTE modem, directly to the suite of CommandCentral applications.

The V700 is easy to operate, with four control buttons. Its innate Record-After-the-Fact® (RATF) technology enables the device to capture important video evidence that can be retrieved hours or days after an incident occurs, even if a recording is not triggered by the user or sensor. With RATF, officers can prioritize response to immediate threats versus manually activating their camera.

KEY FEATURES OF THE V700

- **Detachable Battery** – The V700's detachable battery allows officers to switch to a fully-charged battery if their shift goes longer than expected. Since the battery charges without being attached to the V700, the battery is kept fully charged in the dock ready for use. This feature is especially helpful for agencies that share body-worn cameras with multiple officers.
- **Wireless Uploading** – Recordings made by the V700 are uploaded to the agency's evidence management system via LTE or WiFi. This enables easy transfer of critical recordings to headquarters for immediate review or long-term storage.
- **Real-time Location and Video Streaming** – With built-in LTE connectivity, the V700 paired with CommandCentral Aware will send location updates and stream live video to a dispatch center or Real Time Crime Center (RTCC) giving the agency a complete and accurate view of their officers for better coordination and quicker response times.
- **LTE Service Ready** – The V700 is approved for use on Verizon and FirstNet networks in the U.S. and Bell Mobility in Canada. The V700 will ship with a pre-installed SIM from both carriers, ready for service activation upon arrival with a data plan that best suits the agency's needs. LTE service activation would be on the agency's carrier account.
- **Data Encryption** – The V700 uses FIPS-140-2 compliant encryption at-rest and in-transit. This ensures recordings made by the agency's officers are secure from unauthorized access.
- **Record-After-The-Fact®** – Our patented Record-After-the-Fact® technology captures footage even when the recording function is not engaged. The camera user or admin can request video footage from a specific point in the past to be uploaded to the evidence management system, hours or even days after the event occurred.
- **Natural Field of View** – The V700 eliminates the fisheye effect from wide-angle lenses that warps video footage. Distortion correction ensures a clear and complete evidence review process. The V700's high quality, low light sensor captures an accurate depiction of recorded events, even in challenging lighting conditions.
- **SmartControl Application** – To maximize efficiency in the field, the Motorola Solutions SmartControl app enables V700 users to preview video recordings, add or edit tags, change camera settings and view live video from the camera. The app is available for both iOS and Android phones.
- **In-Field Tagging** – The V700 enables easy in-field event tagging. It allows officers to view event tags and save them to the appropriate category directly from the body-worn camera or via the SmartControl app.
- **Auto Activation** – The V700 body-worn camera(s) paired with an M500 or 4RE in-car video system(s) can form a recording group, which automatically starts recording when one of the devices begins to record. Each device can be configured to initiate a group recording using triggers like lights, sirens, doors, gun racks, and other auxiliary inputs. Up to eight V700s can form a recording group and collaborate on recordings, without a

corresponding in-car video system, using similar triggers. Group recordings are uploaded and automatically linked to the evidence management system as part of one event.

V700 AND IN-CAR VIDEO INTEGRATION

The V700 integrates seamlessly with the M500 or 4RE in-car video systems, capturing video of an incident from multiple vantage points. This integration includes the following features:

- **Distributed Multi-Peer Recording** – Multiple V700 body-worn cameras and in-car video systems can form a recording group and based on the configuration, automatically start recording when one of the devices begins to record. Group recordings are uploaded and automatically linked to the evidence management system as part of one incident.
- **Automatic Tag Pairing** – Recordings captured by integrated V700 body-worn cameras and in-car video systems can be uploaded to the evidence management system with the same tags. From the in-car video system's display, videos can be saved under the appropriate tag category. The tag is then automatically shared with the V700 video and uploaded as part of one incident along with the officer's name.
- **Evidence Management Software** – When V700 body-worn cameras and in-car video systems record the same incident, the Motorola Solutions evidence management software automatically links those recordings based on officer name, date, and time overlap.
- **Additional Audio Source** – The V700 can serve as an additional audio source when integrated with the in-car video system. The V700 also provides an additional view of the incident and inherits the event properties of the in-car video system's record, such as officer name, event category, and more, based on configuration.
- V700 and APX Radio Integration

Motorola Solutions' APX two-way radios can pair with V700 body-worn cameras to automate video capture through Bluetooth. When the APX's emergency mode button is pressed, or the Man Down feature is activated, the V700 is triggered to start recording immediately. The recording will continue until manually stopped by the officer via the start/stop button on the V700 or group in-car video system.

HOLSTER AWARE™ INTEGRATION

The V700 integrates with a Holster Aware™ sensor through Bluetooth. If configured, the sensor automatically prompts the V700 to record the moment the holstered equipment is drawn. The holster sensor information is stored with the V700 user profile and uploaded to the evidence management system. If the user is assigned to a different camera, the holster sensor information will be applied to the new camera. The holster sensor allows officers to record high-stress events as they unfold, without having to sacrifice situational awareness by manually activating the V700.

DOCKING STATIONS

The V700 has three docking options:

Transfer Station – The Transfer Station is built for large, multi-location agencies with large numbers of V700 cameras in service at any given time. It can charge up to eight fully assembled body-worn cameras or individual batteries. The eight docking slots include an LED indication of a battery charging and upload status. While the V700 charges, the Transfer Station can automatically offload recordings from the camera to the evidence management system via an integrated 2.5Gb switch. The Transfer Station connects directly to the LAN for fast offload of recorded events to storage, while charging the body-worn camera battery. The Transfer Station supports comprehensive device management capabilities, such as camera configuration, checkout and officer assignment options; rapid checkout, kiosk, and individual camera checkout; automatic firmware and configuration updates.

USB Base – The USB Base charges the battery of a single V700 or standalone battery pack. The USB Base can be mounted in a vehicle or attached to a desktop or Mobile Data Computer with 12V or USB connection for power. The USB Base has LED indications for battery charging status and upload, and an ambient light sensor for optimal LED brightness control from bright sunlight to the dim interior of a patrol car. When connected to a laptop or desktop computer, the USB Base can be used to upload recordings to the evidence management system, as well as, receive firmware and configuration updates.

Wi-Fi Base – The Wi-Fi Base is mounted in a vehicle. It facilitates V700 upload of video evidence to the evidence management system, firmware updates, communication between V700 and in-car video system group devices and charges fully assembled V700s or individual battery packs. It has LED indications of battery charging status and upload, and an ambient light sensor for optimal LED brightness control, from bright sunlight to the dim interior of a patrol car.

MOUNTING SOLUTIONS

V700 is compatible with the entire line of V300 mounting solutions as depicted below.

STATEMENT OF WORK — ESSENTIAL SERVICE FOR V700 BODY WORN CAMERA DEVICE (NORTH AMERICA)

This Statement of Work ("SOW") is subject to the terms and conditions of the Motorola Solutions Service Agreement or other applicable agreement in effect between the parties ("Agreement"). The terms of this SOW are an integral part of an Agreement with the Customer to which this SOW is appended and is made a part thereof by this reference. In the event of a conflict between the terms and conditions of an Agreement and the terms and conditions of this SOW, this SOW will control the inconsistency only. This SOW applies to the Device(s) specifically named in the Agreement.

DESCRIPTION OF SERVICES AND OBLIGATIONS

The term "Customer" refers to any end-user who has a purchase agreement with Motorola Solutions.

Essential Service provides either three (3) or five (5) years of coverage, as selected by the Customer, and includes:

- Remote Technical Support
- Software Maintenance
- Software Enhancements
- Hardware Repair for manufacturing defects

Motorola Solutions includes three (3) years of Essential Service with each Body Worn Camera (BWC) device purchase, with optional service upgrades to extend and/or provide additional coverage for the device.

ESSENTIAL SERVICE

Remote Technical Support

Remote Technical Support is provided for device issues related to software and/or hardware that require troubleshooting expertise. Motorola Solutions' System Support Center (SSC) and Technical Support Operations (TSO) center are staffed with highly trained technologists who specialize in the diagnosis and resolution of product issues. Motorola Solutions' SSC and TSO are continuously monitored against stringent, industry recognized incident and problem management processes.

Motorola Solutions will respond to calls, e-mails, and web portal submissions during normal support hours, five (5) business days per week, excluding holidays, and weekends. In addition, Customers may contact the Motorola Service Desk and a Motorola Solutions representative will log a technical request on Motorola Solutions' Case Management System.

Technical Problem Isolation, Analysis and Resolution.

A Motorola Solutions representative or technologists will:

- Work to isolate the problem/issue
- Analyze and determine the cause of the problem/issue
- Work to achieve problem/issue resolution

Software Maintenance

Software maintenance is important for ensuring device performance and operation. Essential Service provides the Customer with access to the latest available Body Worn Camera (BWC) device operating system (OS) software, device firmware, and application software. Device software releases maintain the device software performance such that the Device operates in accordance with its specifications and documented functionality, and is aligned with the applicable Motorola Solutions infrastructure platform lifecycle. Each release may include bug fixes, security patches, and/or new feature activation enablements.

Configuration of the Body Worn Camera (BWC) device is made possible through the use of the CommandCentral DEMS, VideoManager EL On-Premises, or VideoManager EL Cloud, solution.

Access to software updates will remain available until the expiration of the initial term of the Essential Service Package. Upon expiration of the initial Essential Service term, availability of software updates will terminate, unless the Customer renews Essential Service.

Software Enhancements

Software Enhancements are included with all BWC devices that have a valid Essential Service Package. Software Enhancements may include, or introduce, new device features, functionality, or capabilities, that were not available at time of device purchase. Availability of software enhancements depends on the device hardware and software capability to work with the new enhancements. Certain enhancements, not included with Essential Service Packages, may only be available as an additional purchase.

Motorola Solutions, at its discretion, reserves the right to add new software enhancements, or remove existing software enhancements, from any of its Essential Service Package. Please contact your Motorola Solutions Sales associate, or visit the Motorola Solutions' Web portal, for additional information regarding device features and capabilities.

Software Enhancements for the device will be continuously available until the expiration of the initial term of the Essential Service Package. Upon expiration of the initial term of Essential Service, availability of Software Enhancements will terminate, unless the Customer renews Essential Service.

Device Hardware Repair

Essential Service provides the Customer with repair services at a Motorola Solutions owned and operated, supervised, or certified Repair Center that employs the latest test equipment and original or certified replacement components used in the manufacturing of the BWC device. Device Hardware Repair provides the Customer with repair services for internal and external device components that are damaged as a result of manufacturing defects and defects due to normal wear and tear. With this Service, the device is repaired to ensure full compliance with its specifications, as published by Motorola Solutions at the time of delivery of the original device via:

- Repairs, adjustments and restorations, if appropriate, of any device that malfunctions while being used within the operational and environmental parameters specified by Motorola Solutions.
- Device updates, if applicable, as may be released, from time to time, by Motorola Solutions in accordance with an Engineering Change Notice.

At the discretion of Motorola Solutions, if the device is considered "un-repairable", for technical or economic reasons, Motorola will replace the device with a new or refurbished device.

A three (3) year optional Service is available for the Transfer Station. Scope includes Technical Support and Hardware Repair as described in sections 1.2.1 and 1.2.4.

Essential Software Service

If for any reason the Customer declines or chooses to exclude the hardware repair option that is included with the three (3) year Essential Service Package, the Customer will automatically default to, and be entitled to, three (3) years of Essential Software Service and one (1) year of hardware repair against manufacturing defects, as covered by the standard product warranty.

Essential Software Service provides three (3) years of coverage and includes:

- Remote Technical Support
- Software Maintenance
- Software Enhancements

Scope of Products or Services included

Essential Service, and optional Service upgrades, are currently available for all V700 Body Worn Camera devices. Check with your Motorola Solutions' Sales representative if you have a question about the eligibility of your device.

Optional and purchasable Services are available for the Transfer Station.

MOTOROLA SOLUTIONS RESPONSIBILITIES

Software Release Availability. Motorola Solutions will provide access to the latest BWC device software and firmware releases via the CommandCentral DEMS, VideoManager EL On-Premises, or VideoManager EL Cloud, solution. For customers using the CommandCentral DEMS or VideoManager EL Cloud, software and firmware upgrades will occur automatically when the Body Worn Camera device connects to the agency's CommandCentral DEMS or VideoManager EL Cloud instance. If using the VideoManager EL On-Premises solution, the on-prem server will periodically connect to the VideoManager EL Cloud database to check for new software and firmware versions, download the latest version, and apply the new software and/or firmware automatically to the BWC device when it connects to the server.

Software Release Notes. Motorola Solutions may, from time to time, provide release notes for the BWC Device software release. Information regarding training material will be posted on the Learning Experience Portal (LXP) at <https://learning.motorolasolutions.com>

Hardware Repair. Motorola Solutions will provide repair or replacement of a device, at its option, with a five (5) business day in-house turnaround time, provided the device is delivered to the repair center by 9:00 a.m. (local repair center time), and replacement parts, components, and/or devices are available. Business days do not include holidays or weekends. Repair may include the replacement of parts, or boards with new parts or complete boards or, at Motorola Solutions' option, with functionally equivalent, reconditioned parts, boards, or with a new or refurbished replacement device. All replaced parts, boards or devices will become the property of Motorola Solutions. Turnaround time represents the time a product spends in the repair process; it does not include time in transit, including customs clearance.

LTE/4G Service. Motorola Solutions supports the operation of the V700 BWC device on multiple approved LTE/4G Carrier Networks. Based on the Customer's selection of a Carrier during the initial ordering process,

Motorola Solutions will install, in the device, the Customer's selected Carrier SIM, before the device is shipped to the Customer. The Customer is responsible for contacting the Carrier and activating the LTE/4G data service.

Shipping. For devices repaired under Essential Service, Motorola Solutions will provide one-way shipping, from an Authorized Motorola Repair Center to the Customer. The Customer is responsible for the shipping method and any shipping costs incurred when returning the faulty device to an Authorized Motorola Solutions repair center. Based on the country of purchase, Motorola Solutions may also cover, or include, two-way shipping for the damaged or defective device. Eligibility for two-way shipping will be confirmed during the repair submission process.

CUSTOMER RESPONSIBILITIES

Serial Numbers. If device orders are submitted via Motorola Solutions' Partner Hub, OCC, or CPQ ordering systems, the hardware serial number(s) for three (3) year Essential Service and Essential Software, as well as five (5) year Essential Service, and three (3) and five (5) year Essential Service with Accidental Damage and Advanced Replacement, will be automatically captured and included in the Service Agreement.

If five (5) year Essential Service or three (3) and five (5) year Essential Service with Accidental Damage and Advanced Replacement is purchased within 90 days of device shipment, the Customer must provide a complete list, preferably in electronic format, or by completing a Service Order Form (SOF), of all hardware serial numbers to be covered under the Agreement.

Initiating Repair. When initiating a repair, the Customer must contact Motorola Solutions to obtain a Return Material Authorization (RMA) number for each faulty BWC device. The Customer can submit a repair, and request an RMA, via the Partner Hub Portal, or by contacting the Motorola Solutions' Service Desk. If two-way shipping is included, the customer can generate a shipping label via Partner Hub, or by contacting the Motorola Solutions Service Desk. The Return Material Authorization (RMA) must be included with the device when shipped to the Authorized Motorola Repair Center.

- Only the BWC device should be returned for repair. The battery must be removed before shipping the device to a Motorola Solutions Repair Center.
- Device accessories should not be included when returning a device to a Motorola Solutions Repair Center for repair. Accessories include batteries, chargers or charging stations, cables, mounts, and clips.
- The SIM card must remain in the device, and intact, when the device is shipped to a Motorola Solutions Repair Center. If the SIM card is removed, or if any evidence of SIM card tampering is found, including disassembling of the device, the warranty will be null and void.

Motorola Solutions is not responsible for any accessories, or device batteries, that are shipped with the device for repair.

Device software releases. The Customer will be responsible for updating each eligible BWC device with the latest available software and/or firmware, and of advising users of any operational changes that may have been introduced as a result of the new software or firmware.

LTE/4G Service. The Customer is responsible for selecting a Motorola Solutions approved LTE/4G Carrier/Provider during the initial ordering process, and for contacting the Carrier and activating LTE service for the device. The Customer is solely responsible for all financial obligations with the selected LTE Carrier.

Wi-Fi Connectivity. The Customer is responsible for providing all Wi-Fi connectivity to the device.

Removing Customer Data. The Customer is responsible for removing, from the device, any data, video, or other information that the Customer wishes to retain or destroy, prior to sending the device to a Motorola Solutions Repair Center for repair.

Motorola Solutions may provide a Video Evidence Recovery Service for the BWC device, as an additional charge. Video Evidence Recovery is a best effort service that is dependent on the condition of the device. This service, if applicable, will have a separated Agreement, with Terms and Conditions, outside the scope of this Statement of Work (SOW). Please contact your Motorola Solutions Representative for more information regarding the Video Evidence Recovery Service.

ESSENTIAL SERVICE LIMITATIONS AND RESTRICTIONS

Customer will incur additional charges at the prevailing rates for any of the following activities, which are not covered under this Agreement:

- Replacement of consumable parts or accessories, as defined by product, including but not limited to batteries, cables, mounts, or clips.
- Repair of problems caused by natural or manmade disasters, including but not limited to fire, theft and floods that would cause internal or external component damage or destruction.
- Repair of problems caused by third parties' Software, accessories or peripherals not approved in writing by Motorola Solutions for use with the device.
- Repair of problems caused by using the device outside of the product's operational and environmental specifications, including improper handling, carelessness or reckless use, or repaired by a third party.
- Repair of problems caused by unauthorized alterations or attempted repair.
- Non-remedial work, including but not limited to administration and operator procedures, reprogramming, and operator or user training.
- Problem determination and/or work performed to repair or resolve issues with non-covered products; for example, any hardware or software products not specifically listed on the service order form.
- Any file or video backup or restoration.
- Completion and test of incomplete application programming or system integration if not performed by Motorola Solutions and specifically listed as covered.
- Use of Software or Firmware releases, except as provided for under the responsibilities outlined in this document.
- Accidental damage, chemical or liquid damage, or other damage caused outside of normal device operating specifications, unless the Customer has purchased the optional Essential Service with Accidental Damage and Advanced Replacement package.
- Cosmetic imperfections that do not affect the functionality of the device.

Where a Body Worn Camera device is submitted for repair that is outside the scope of Service, such repair may be quoted by Motorola Solutions for additional cost in accordance with Motorola Solutions' standard Time and Materials (T&M) rates and terms and conditions. Motorola Solutions will notify the Customer of any incremental charges related to the aforementioned exclusions prior to completing the repair and said repair will be subject to acceptance of the quotation by the Customer.

Software support for unauthorized modifications, or other misuse of the device software, is not covered under this Agreement.

Access to the software and firmware releases for updating the device under this SOW is available only for the device named in the Agreement. Software updates to any additional devices are expressly excluded and

prohibited. Notwithstanding the foregoing, Motorola Solutions may, at its sole discretion, include coverage for other devices.

Any implementation tools not required to support the device software and firmware updates are excluded from coverage.

MOTOROLA SOLUTIONS IS NOT OBLIGATED TO PROVIDE SUPPORT FOR ANY DEVICE:

- That has been repaired, tampered with, altered or modified (including the unauthorized installation of any software) — except by Motorola Solutions authorized service personnel.
- That has been subjected to unusual physical or electrical stress, abuse, or forces or exposure beyond normal use within the specified operational and environmental parameters set forth in the applicable product specification.
- If Customer fails to comply with the obligations contained in the product purchase agreement and/or the applicable software license agreement and/or Motorola Solutions terms and conditions of service.

ESSENTIAL SERVICE WITH ACCIDENTAL DAMAGE REPAIR AND ADVANCED REPLACEMENT

Description of Services and Obligations

Accidental Damage coverage is an optional, prepaid service that adds coverage for accidentally damaged BWC devices. Accidental Damage coverage must be purchased together with, or within 90 days of, a qualifying Motorola Solutions device purchase. This three (3) or five (5) year service offer reduces unexpected expenses related to the repair of the device. Accidental Damage and Advanced Replacement coverage includes all services provided under Essential Service, plus additional coverage for Accidental Damage and Advanced Replacement of the damaged device.

Examples of repairs covered under Accidental Damage include:

- Electrical repair for failures caused by accidental water or chemical damage
- Electrical repair for accidental internal damage
- Replacement of accidentally cracked or broken housings.
- Replacement of accidentally cracked or broken camera lens or displays.
- Replacement of accidentally cracked or broken or missing buttons, knobs, or keypads

Repair or Replacement. Motorola Solutions will provide repair or replacement of a BWC device, at its option, with a five (5) business day in-house turnaround time, excluding weekends and holidays, provided the device is delivered to the repair center by 9:00 a.m. (local repair center time), and replacement parts, components, and/or devices are available. Repair may include the replacement of parts, or boards with new parts or complete boards or, at Motorola Solutions option, with functionally equivalent, reconditioned parts, boards, or with a new replacement or refurbished device. All replaced parts, boards or devices will become the property of Motorola Solutions. Turnaround time represents the time a product spends in the repair process; it does not include time in transit, including customs clearance.

Serial Numbers. If the Accidental Damage Service is purchased with the device, in the same order, using Motorola Solutions' Partner Hub Portal, OCC, or CPQ when ordering, the hardware serial number(s) are automatically captured and included in the Service Agreement. If Accidental Damage Service is purchased within 90 days of device shipment, the Customer must provide a complete list, preferably in electronic format, or by completing a Service Order Form (SOF), of all hardware serial numbers to be covered under the Agreement.

Initiating Repair. When initiating a repair, the Customer must contact Motorola Solutions to obtain a Return Material Authorization (RMA) number for each faulty BWC device. The Customer can submit a repair, and request an RMA, via the Partner Hub Portal, or by contacting the Motorola Solutions' Service Desk. If two-way shipping is included, the customer can generate a shipping label via Partner Hub, or by contacting the Motorola Solutions Service Desk. The Return Material Authorization (RMA) must be included with the device when shipped to the Authorized Motorola Repair Center.

- Only the BWC device should be returned for repair. The battery must be removed before shipping the device to a Motorola Solutions Repair Center.
- Device accessories should not be included when returning a device to a Motorola Solutions Repair Center for repair. Accessories include batteries, chargers or charging stations, cables, mounts, and clips.
- The SIM card must remain in the device, and intact, when the device is shipped to a Motorola Solutions Repair Center. If the SIM card is removed, or if any evidence of SIM card tampering is found, including disassembling of the device, the warranty will be null and void.

Motorola Solutions is not responsible for any accessories, or device batteries, that are shipped with the device for repair.

Advanced Replacement. Under Accidental Damage and Advanced Replacement Service, Motorola Solutions will provide Advanced Replacement for the damaged device. Motorola Solutions will ship a new or refurbished replacement device to the Customer within two (2) business days of receiving the Customer repair request, subject to availability of replacement devices. Business days do not include weekends or holidays.

The Customer must return the defective or damaged device to a Motorola Solutions Repair Center within 30 days after receiving the replacement device. Failure to return the damaged device to Motorola Solutions will result in an additional Customer charge for the replacement device.

When returning a device for Advanced Replacement, device accessories should not be included. Accessories include batteries, chargers or charging stations, cables, mounts, and clips.

Motorola Solutions is not responsible for any accessories that are shipped with the device.

ACCIDENTAL DAMAGE AND ADVANCED REPLACEMENT LIMITATIONS AND RESTRICTIONS

Customer will incur additional charges at the prevailing rates for any of the following activities, which are not covered under this Agreement:

- Replacement of consumable parts or accessories, as defined by product, including but not limited to batteries, chargers, charging stations, mounts, and clips.
- Repair of problems caused by natural or manmade disasters, including but not limited to fire, theft and floods that would cause internal or external component damage or destruction.
- Repair of problems caused by third parties' Software, accessories or peripherals not approved in writing by Motorola Solutions for use with the device.
- Repair of problems caused by using the device outside of the product's operational and environmental specifications, including improper handling, carelessness or reckless use, or repair by a third party.
- Repair of problems caused by unauthorized alterations or attempted repair.
- Non-remedial work, including but not limited to administration and operator procedures, reprogramming, and operator or user training.
- Problem determination and/or work performed to repair or resolve issues with non-covered products; for example, any hardware or software products not specifically listed on the service order form.

- Any file or video backup or restoration.
- Completion and test of incomplete application programming or system integration if not performed by Motorola Solutions and specifically listed as covered.
- Use of Software or Firmware releases except as provided for under the responsibilities outlined in this document.

There is a maximum limit of one (1) Body Worn Camera device repair, per contract year, for Essential Service with Accidental Damage and Advanced Replacement.

Where ongoing "Accidental Damage" repair is deemed by Motorola Solutions to be excessive, systemic, or the result of device mishandling, the Customer may be subject to an additional charge. Should the accidental damage continue unabated, the Customer will incur repair charges at Motorola Solutions' discretion and prevailing charges for devices deemed by Motorola Solutions to have been damaged through improper handling, carelessness or reckless use.
